Verbal summary of the idea of my final project:

My role in creating the final project included the following tasks/steps:

I roughly spent approximately _____ hours producing this project
The most important lessons I think I learned doing this project was ….

Now that this course is done answer these questions with **your** answers. Do not work with others, these are your words and you may be asked such things by employers and others?

"What is data visualization?"

 "Why is data visualization useful to a data scientist?"

 "Why is data visualization hard to do well?"

"How should you produce a data visualization?"

In retrospect, if you could change one thing to make the class better for the next quarter what would *you* suggest we do?

Finally, to not ruin what worked well in the class what one thing would you really want to make sure we keep next quarter?"
